What is Vibroacoustics?

Vibroacoustics is a term referring to technology that translates **sound you can hear - into sound you can feel.**

This sensation is achieved using transducers incorporated into tables, chairs and mats.

Our Vibroacoustic products produce a relaxing effect in the physical body, the soothing vibration permeates the body to a deep cellular level.

The type of music or frequencies played through transducers directs the effects a person feels.

The quality of transducer reflects the value of physical and emotional experience a person has.

Studies show using **Vibroacoustic Technology** can assist the body to:

Relax and De-stress, Increase Circulation, Lower Blood Pressure and Elevate Moods.

Benefits of Vibroacoustics

- Deepens Relaxation
- Increases Circulation
- Reduces Stress & Anxiety
- Effective for Pain Management
- Reduces Massage Therapist Burnout
- Enhances Sound/Music Therapy
- Heightens Meditation Levels
- Stimulates Creativity & Learning
- Compliments Physical Therapies
- Effective with Self Help or Mind-Body CDs

InnerSoul Sound Tables 'Evolution Series'

The transducers in this table series deliver the ultimate sound experience. Use the tables as a stand alone treatment or combine with Bodywork, Energy or Music Therapies. The vibration is delivered throughout the table so accurately and smoothly that the brain interprets the stimulus as *Sound*, not *Shaking*.

Several Custom Crafted Table Models Available - See Website for Details

InnerSoul Aqua Sound Tables

Same amazing sound technology combined with the cradling comfort of water, soothing heat and topped with memory foam. Stationary & Hydraulic models.

Add virtual imagery equipment to create the ultimate treatment or meditation experience.

"Stephen, you say that this Sound Mat was created with Love...we have to differ with you...we would say that this Sound Mat is beyond being created with Love - it IS Love! We are grateful beyond words to have the opportunity to experience this intelligent Creation. THANK YOU for not only creating the most AMAZING system, but also the best customer service we've experienced to date, in every way." A & R, Hawaii

"The vibrations in the Table are powerful but not shaky, they are smooth and rolling." Michaela, CA

*"I received the Vibroacoustic Mat, set it up yesterday, and worked with my first guinea pig today. She said it was a "miracle". It was a cinch to set up. I'm using my 36-string lever harp. Thank you so much for building this. I'm a satisfied customer!"
Anne B. Vibroacoustic Harp Therapist, N.H.*

*"Without exception the clients tell me that the experience of the massage on the sound table is felt on a deeper level. The sound penetrates the body in a subtle way and generates a feeling of deeper relaxation." Ludo Van Hiess, Owner
Annica Spa, Namibia, Africa*

*"Just got the sound table and I have to say I am very impressed ... great workmanship ... worth every penny of the price. Got it set up and have already been on it for a while and it is great!"
Tim Janek, LMT/Instructor, The Phoenix School of Massage, Houston, TX*
